EDUCATION

Columbia University, SEAS

Bachelor of Science in Computer Science

New York City, New York

Expected 2030

- **Honors:** C.P. Davis Scholar
- **Relevant Coursework:** Data Structures

St. Mark's School of Texas

High School Diploma

Dallas, Texas

2022-26

- **Honors:** AIME Qualifier, PicoCTF Top 20

GPA: 3.96 UW / 4.5 W; **ACT:** 36; **SAT:** 1560

WORK & LEADERSHIP EXPERIENCE

Alauda AI

Aug 2026-Present

Intern

- Internship; Leading development of a benchmark related to mortgage underwriting agentic tasks, looking to send a submission to ICML 2027.

Columbia University

Aug 2026-Present

Intern

- Currently working on a submission to ICLR 2027 in DAPLab at Columbia. Project is an agentic coding memory task benchmark + RAG alternative proposal.

Stealth Startup

June 2026 - Present

Founder

- Accepted into Foundry(<25 startups) by Wix Ventures, a 2-day workshop focused on GTM and outreach.

University of Texas at Dallas

2024-2026

Intern

- Built XAIGID-RewardBench, a 4,000-triplet benchmark evaluating MLLMs as judges of explanations for AI-generated image detection. Wrote pipelines for dataset curation, triplet construction, judge prompting, parsing, scoring, failure logging, and downstream experiments.
- First-author paper accepted to COLM 2026; related work accepted to NeurIPS 2025 GenProCC.

Robotics

2022-2026

Founder

- Full technical lead for robot software, hardware, and manufacturing for two seasons; 3x World Championship qualifier(<1%) and previous World Champion(6000+ teams); Official Team USA alumnus(<15 per batch).
- Built robot software for computer vision, custom path planning, and match-state control. Led hardware and electrical design. Designed with Onshape and used various additive + subtractive methods to manufacture. Also led efforts to acquire funding + sponsorships.

HStar

2025

Intern

- Helped implement a new control algorithm for coordinated satellite-movement by designing, building, and programming several minibots to simulate the satellites.

AI Club

2024-2026

Founder

- Led 30+ member club; led applied ML/CV projects including an AI-powered water polo scouting tool for player tracking, game observation, and strategy support.

SKILLS, ACTIVITIES & INTERESTS

Languages: Fluent in Chinese

Technical Skills: Python, Java, JavaScript/TypeScript, C++, SQL

Activities: Swimming, Lifting

Interests: Mau P, Cooper Flagg, CAVA, La La Land(both), DJing
